BETHEL WINS TWO IN THREE GAMES

West Paris Scores First Defeat for Bethel Regulars in Month

WEST PARIS 6—BETHEL 3

Saturday afternoon witnessed the first defeat for the regular team in a month. The first inning was fatal to the home aggregation. The first man up was safe on error by Swan. He advanced to second when Eldredge threw the ball into the bleachers. The next man up, second, was thrown to third and then to home. You threw to third and then to home. Scotty came home shortly after an error by the first baseman.

Bethel did not score until the fourth. After "Hard-Jack" Maynard had been thrown out by the shortstop Gill got a pass. He stole second and scored on Scotty's hit after Bob had fanned.

West Paris got their only earned run in the sixth on three hits. Bethel scored their last counter in the eighth when Gill again came through. This time Jack got a pretty hit over first. He advanced to second on a balk by Warren. He went to third on a wild pitch and scored on the play to first after Robertson had fanned.

Except for the first inning the Bethel team went fairly well. Gill, especially, played a whirlwind game in right field. He had a hard running catch and two assists, one to first and the other to second. Swan made a pretty catch of a foul ball in the last inning. Bethel was noticeable by its absence—only two hits were made off Warren while West Paris was finding Rodney for ten safeties.

Summary: Earned runs—West Paris 6, Bethel 3. Two base hits—Daugherty, Penley. Small. First on balls—Daugherty, Penley. Struck out—by Warren 11, by Bartlett 10. Left on bases—Bethel 5, West Paris 9. Wild pitches—Bartlett 2. First base on errors—Bethel 4, West Paris 4. Balk—Warren. Errors—Larney and Emery. Scorer—Davis. Time 1:55.

BETHEL INDIES 4—LOVELL 3

Sunday saw a picked-up Bethel team play one of the best games of the season. Jack Gill led the state and gave a wonderful exhibition of mound work. He struck out twelve of his opponents and allowed only seven hits.

Lovell got a lucky run in the first inning when Jack hit the first batter. He stole second and scored on a hit. Lovell got two more in the second on a base on balls, two hits and an error. A fast double play—Eldredge to Goddard to Swan called a halt to the scoring. After the second inning Jack tore down and Lovell failed to score again.

The Independents got one run back in the second on hits by Robertson and Goddard. Another run in the seventh came on Scotty's third hit and a sacrifice. Lamb started things in the eighth with a hit over first. White canced him to third with a sacrifice double. Lamb scored on a sacrifice and White went home on a sacrifice. White and Robertson led in the hitting, while Goddard and Larney did a little slugging. The infield looked like a million with a lightning double play the high point. Lacking the regular battery, the Bethelites, with Gill and Robertson as battery, had a combination that was unbeatable. After a tough first and second inning, Jack worked like a charm.

SATURDAY'S GAME CANCELLED

The game arranged to be played with Fryeburg at Bethel Saturday afternoon has been cancelled.

AUTOMOBILE EXCISE TAX LAW NOW EFFECTIVE

The automobile excise tax, which aims to provide an equitable and uniform taxation for motor vehicles, was effective July 13. From Sept. 1 to Dec. 31 the tax is one-third the sum named in section 76 of Chapter nine of the revised statutes, which follows:

Sec. 76. An excise shall be levied annually as herein provided with respect to each calendar year for the privilege of operating upon the public ways, each motor vehicle to be so operated, subject to the provisions of section eighty-two, as follows: a sum equal to twenty-three mills on each dollar of the maker's list price for the first or current year of model, sixteen and one-half mills for the second year, twelve and one-half mills for the third year, nine mills for the fourth year, five and one-half mills for the fifth year and three mills for the sixth and succeeding years, provided, however, that persons registering under the provisions of sections thirty-four and seventy-five of chapter two hundred and eleven of the public laws of nineteen hundred and twenty-one, the state and political subdivisions thereof, bona fide dealers or manufacturers of motor vehicles, which motor vehicles are sold for the purpose of demonstration and sale and which constitute stock in trade, telephone and telegraph companies subject to the excise tax set forth in chapter nine of the revised statutes in sections thirty-six to forty-two, express companies subject to the excise tax as set forth in chapter nine of the revised statutes in sections forty-three to forty-six, both inclusive, excepting, however, motor buses used for the transportation of passengers for hire shall not be subject to the excise here provided.

ANNUAL BAZAAR

On Thursday, August 22, The Ladies' Club of the Congregational Society presented their Mid-Summer Sale in the dining room of the church.

The attendance was fine and the weather the same. Garland Chapel was decorated with wild flowers, and conspicuous signs and detour arrows were posted to show the way to the stairs, way and down.

The scheme of decoration was unique and won much praise for its originality. Streamers of crepe paper in the colors of the rainbow were suspended from the light globes and columns of the dining room.

At the left of the entrance, the fancy gift and commodity booth was presided over by Mrs. E. K. White, Mrs. Sadie Tuck, Mrs. L. A. Edwards and Mrs. Harry Lyon. Provisions of purple crepe paper against white, with purple aster completed the decorations.

The food table, with streamers of blue and bearing a store load of hot and cold goodies, was a popular place. Mrs. W. C. Gary, Mrs. H. C. Rose and Miss Margaret Herrick sold delicious home made pastries, bread, jellies and other delectable foods.

The entire north side of the room was occupied by the tables bearing the display of aprons, kitchen and household articles. Garlands of green were hung by bows of the same color to the tables, which were decorated with white plates and naparagus fern. Mrs. R. B. Talbot, Mrs. L. U. Bartlett and Mrs. D. C. Philbrick here sold their domestic merchandise.

The sweetest spot, and in the opinion of many, the prettiest, was the card booth. Red streamers over white lace with red berries on the table and fragrant bunches of bee balm at the sides made an alluring harmony. Mrs. A. E. Chapman and Mrs. Arthur Herrick catered to the public "sweet tooth" and sold a large quantity of fresh and tasty home made candy.

The tea tables came in for their share of a very generous patronage. The colors were orange and yellow, looking golden glow and glowing, making a beautiful setting.

Here Mrs. G. L. Thurston, Mrs. A. G. Van Den Kerkhof, Mrs. Melissa Tuck and Mrs. C. Valentine served tea and assorted sandwiches and cakes at small tables.

The fair was a financial success and all members of the Ladies' Club had this opportunity to express their thanks to their local and visiting patrons.

The engagement of Miss Elizabeth Vashaw, daughter of Thomas Vashaw, Bethel, to Charles E. Ray, also of Bethel, has been announced.

Frank Taylor has returned home from the C. M. G. Hospital where he has been a patient for some time and is able to be out of doors.

Mrs. Abel Aramant finished work on the N. S. Stockett & Co. mill for the week for Hye, N. Y.

JOINT FIELD DAY HELD MONDAY, FRYEBURG CENTER

About 1,000 people gathered last Monday on the spacious lawn of E. Chandler Buzzell & Son of Fryeburg Center for the annual Grange and Farm Bureau Field Day. "The best Field Day we ever had" the farmers said.

The hall was packed for the movies in the morning so that some had to stand in the doorway and others did not get in at all.

The auto race on Buzzell's pasture "Broadway" was the next event with Miss Evelyn Plummer's new "Liz" coming in first under the expert guidance of Mr. Davis of Buckfield.

Fifty men participated in the catling contest conducted by R. F. Talbot, State Dairy Specialist. Five of Mr. Buzzell's Herefords, including a large bull, were judged for weight by the farmers. "Bill" Devoe of South Paris guessed within 10 pounds of total weight, winning first prize of a bag of feed. 7,119 lbs. was the total weight of the cattle.

A demonstration on "Tempting Vegetable Cookery" packed the way into the Odd Fellows Hall. Mrs. Maria Binford and Mrs. Edna R. R. gave this demonstration.

The band started the afternoon of other which E. C. Buzzell gave a very cordial welcome to the people and told of the history of Fryeburg.

Rev. R. C. McArthur, field secretary of Massachusetts Federation of Churches, gave an inspiring address on "This is the Life." He pointed out that in the hardships and hard work connected with farming "This is the Life."

Mr. B. Partridge, clerk of courts, Fryeburg, talked about county government and the foundation of big men. His many stories kept the audience in an ecstasy.

Everyone was glad to see Ray, Love and Farmer County Agent, back and thought it was in danger of fading. Arthur Binford, President of the Fryeburg Grange, called him onto the stand and gave him a warm welcome.

Everyone had a good time watching the "Vegetable of Day" performance and no one knows any more about a "Vegetable of Day" performance.

Mr. McArthur said it was a great deal of fun and he was looking forward to next year's field day.

FISH AND GAME ASSOCIATION PLANS TWO DAYS OUTING

The first annual summer outing of the Maine Sportsmen's Fish and Game Association is to be held Sept. 1 and 2 at Bangor Lake, with the Mountain View House headquarters for the meeting.

Sportsmen, naturalists and romancers, whether members of the Association or not, are invited to bring their fishing rods and other equipment, to participate in the two-day outing at the edge of the Maine wilderness. Non-members are urged to join the organization to take part in the outing, which will be the feature of the fall outing.

Special rates have been arranged at the hotel for the outing, including the outing, supper, and a hot and cold buffet luncheon, and will be paid off under the plan of the outing, with prices offered at the time and run up on a cash basis. An entrance fee of 25 cents is charged for most of the material, which was arranged for women, children and men will be no fee.

Charles A. Ray, expected home from St. Louis, where he was when he has been absent for several days. Mr. Ray is recovering from the C. M. G. Hospital where he has been a patient for some time and is able to be out of doors.

Mrs. Abel Aramant finished work on the N. S. Stockett & Co. mill for the week for Hye, N. Y.

NEWS REVIEW OF CURRENT EVENTS

Sino-Russian War Clouds Denser Over Manchuria—Senate Tariff Bill.

By EDWARD W. PICKARD
WAR between China and Soviet Russia became increasingly probable during the week, and China let the world know that if it did come, Russia alone should be blamed. Several weeks ago it was said in these columns that the basic of the Manchurian trouble was the inalienable right of the Russians to utilize the rest of the world, and this fact is emphasized in identical communications delivered by China's envoys to the governments of all nations signatory to the League of Nations pact. The note handed Secretary of State Stimson by Mr. Wang was to the effect that the Chinese government has been plotting to overthrow the Chinese government and establish a new government, and the latter has the documents to prove this contention.

Since 1927, the Chinese government declares, Russia has been conducting communistic propaganda in China, using the funds of the Chinese Eastern railway to finance these activities. These involved, it is charged, not only the overthrow of the Chinese government but the destruction of China's political and economic system. These activities, it is added, have progressed to a point where the safety of China is endangered. China also charges Russia with sponsoring a policy of wholesale assassinations, one of the purposes of which was to bring about a world wide revolution.

In the present crisis on the Manchurian frontier, the Chinese say, has been making threats involving not only firing into but the operation of military airplanes over Chinese territory. China says the communists, still in power, are responsible for the Chinese Eastern railway, and the latter has the documents to prove this contention.

During the week there were reports of clashes between Chinese and Russian troops which in one or two instances resulted in fatalities. Each side accused the other of aggression, but the dispatches indicated that the Russian forces were the more aggressive in making border raids. The Nanjing government continued to have heavy reinforcements to the Manchurian frontier, and recent columns from Peking said Russian troops had already completed their invasion and were now to march on Harbin, the Manchurian railroad center. It was asserted this advance was to be a "punitive expedition" and that the Russian government was determined to force China to comply with its demands regarding the Chinese Eastern railway but would make no formal declaration of war. Several trains on the Chinese Eastern were damaged recently and Russian agents were arrested charged with the crime.

measures and figuring what the total duties by schedules would represent in percentages of total values of imports.

It was estimated the customs revenue under the senate bill would amount to \$205,488,130, as compared with \$246,014,543 under the house bill and \$216,512,236 under existing law. The figures showed a reduction in the agricultural schedule from the house bill, which was somewhat of a surprise.

The equivalent ad valorem of rates of the agricultural schedule in the senate committee bill was listed as 32.39 per cent as compared with 34.69 per cent in the house bill and 22.50 per cent in the present law.

The senate reconvened on August 10 with only about thirty members present and decided to hold perfunctory sessions twice a week until September 3, when the tariff debate would begin. The leaders planned passage of the measure about the middle of October. The house will reconvene September 23 and will mark time until the tariff bill is passed and ready for conference.

The Republican members of the senate finance committee approved a compromise provision for delaying two years the shift from a foreign to a domestic valuation basis, and settled several other administrative tariff controversies. Democrats of the committee made ready the numerous amendments to the bill which they will offer.

While the representatives of the allied nations at The Hague were still disputing over the division of German reparations, with small prospect of immediate agreement, Dr. Gustav Stresemann, German foreign minister, informed them that, whether or not the Young plan was ratified by September 1, Germany could pay, beginning on that date, only the reparations called for by the scheme devised by Young and the other experts, namely, \$1,750,000,000 a year.

Premier Aristide Briand of France replied that since the Young plan has not been adopted the German government must continue to carry out the treaty in force—the Dawes plan, which the Reichstag had ratified.

Philip Snowden, British chancellor of the exchequer, said he considered the Germans must continue their payments according to the Dawes plan, which is the only recognized scheme for reparations.

British and Belgian troops were preparing to evacuate the second zone of the Rhineland, but Premier Briand said the evacuation of 60,000 French troops from the occupied territory would be difficult since barracks were lacking in France to house them. It was understood that by January 1 the allied troops of occupation to the number of less than 30,000 would be out of all but the last zone, the Mayence highland.

Miss Marvel Crosson of San Diego, one of the contestants in the women's air derby from Santa Monica, Calif., to Cleveland, Ohio, met her death in western Arizona. Her body was found crushed against a boulder and a hundred yards away was the wreckage of her plane. Evidently she had leaped for her life but her parachute had failed to open.

Mammoth and Walker in the plane Spokane Sun God accomplished the feat of making a refueling non-stop flight from Spokane to New York and return. They were in the air five full days and traversed 7,200 miles. One of the British entries for the Schneider cup races, a super-marine Rolls Royce six piloted by Flying Officer Waghorn, made in tests the fastest flight ever made by an airplane. The tremendous speed of 350 miles an hour was reached, without an assisting wind. Lieut. Alford Williams was having a lot of trouble with the American hope for the Schneider trophy. During one of his attempts to get it off the water he was made unconscious by fumes from the engine.

UNCLE SAM decided last week to make a loan of \$9,000,000 to help promote the building up of the merchant marine. The administration notified the shipping board that it saw no objection to such a loan to the American Export Steamship corporation under the Jones-White act. The company wishes to build four vessels, and this work may prevent unemployment in the Camden yards of the New York Shipbuilding company. Secretary of the Navy Adams also signed a contract with the last named concern for the construction of one of the cruisers in the fifteen-cruiser program, the cost to be \$10,000,000.

Relief for agriculturists of several classes is actively under way through the federal farm board. That body approved loans aggregating more than \$9,000,000 to be expended through co-operative groups for the stabilization of the California and fresh grape industries. The two principal groups concerned are the Sun-Mald Raisin Growers and the Federal Fruit Stabilization corporation. In addition to cash credits granted, the board, it was announced, will assist the Sun-Mald Raisin Growers in whatever way possible to insure the growers "the undisturbed use and control of the valuable Sun-Mald trademarks, the modern plants and the international sales organization," which the raisin growers of California have built up over a period of years.

It was announced by the board that it would probably make advances of from five to ten millions to supplement the assistance not given Southern co-operative associations.

Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowel trouble.

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physically wrecked. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots—nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.

THE FOWLER RANGE OIL BURNER

THE FOWLER RANGE OIL BURNER has the following features:

It is built for long life, the castings alone weighing approximately 20 pounds.

Has a 6 Gallon Galvanized Iron Tank; doing away with the small size, objectionable glass bottles.

Each burner is equipped with a brass carburetor to regulate the flow. This is not used on other burners, and absolutely does away with air pockets in the oil lines.

Lights without priming, and produces a high temperature flame very quickly.

The Fowler Range Oil Burner is built for long life. Compare its heavy castings, all brass fittings and needle valves with any other burner on the market, and judge for yourself the great difference in durability.

A Premium Gasoline plus Ethyl

The already famous Socony Special now contains Ethyl fluid. You get a "zero knock rating" plus the highest-quality premium gasoline.

THE DEBATE about gasoline quality is settled. You can prove every statement in this advertisement by the simple method of buying ten gallons of gas and driving your car in and out of traffic, up and down hill.

A gasoline has been produced so different that you can feel the difference.

These are the facts.

We began marketing Socony Special two years ago. It was the finest straight-run gasoline that could be made. Thousands of motorists discovered that it was better and gladly paid the extra cost.

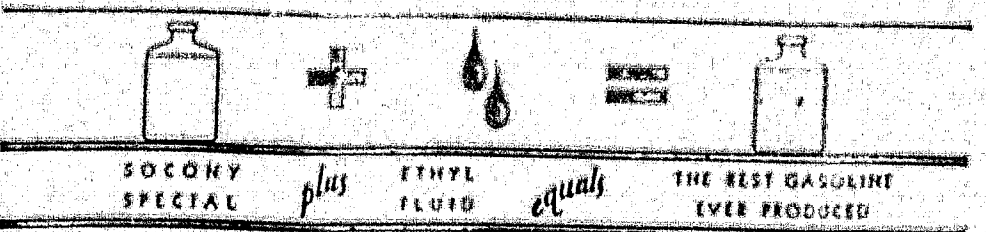

We have taken this same Socony Special and done the one thing that could be done to make it perfect. We have added

Ethyl fluid at extra cost to ourselves but no extra cost to you.

Ethyl fluid is the only preparation as yet discovered by science which will remove the knock from gasoline. Add enough of it to any gasoline—good or bad—and that gasoline will be knockless. It will, as scientists say, have a "zero knock rating."

A poor gasoline can have a zero knock rating and still be a poor gasoline. But when a good, clean, smooth-burning gasoline, a premium gasoline such as Socony Special, has a zero knock rating, then you have the most perfect fuel that can be produced.

Prove What We Say. Your Car Will Stand Up and Shout.

DENTIST'S METHOD
BEST WAY TO CLEAN
ARTIFICIAL TEETH

Referring to Artificial Teeth, an eminent dentist says he repeatedly urges his patients, who wear these dentures, to clean them thoroughly every day. The same care must be given removable bridges. Neglect will surely injure the plates and, since there is danger of bacterial formation, the mouth may become infected. Unpleasant breath always results from lack of care or improper methods of cleaning. Pla-ti-cene in tube, is guaranteed to antiseptically cleanse and deodorize these plates with artificial teeth, also bridges. Dentists who test it endorse it as the most thorough cleansing paste. A special plate brush always should be used. Pla-ti-cene Plate Brush is wonderfully effective and economical. Your druggist should supply you, but if he cannot, be sure to write Deyro Laboratories, 27 Free St., Portland, Maine, and receive a liberal free sample. (Adv.)

Work is progressing rapidly on the new bridge. Cement is to be poured for the slab this week.

Mr. and Mrs. Abel Arsenault were in town Sunday. They were leaving in the afternoon for New York where they will make their future home.

There was an old fashioned dance at the Grange Hall, Aug. 23.

Vote for lower rates

The principal costs in the generation of electricity from water power are interest and taxes.

These remain the same regardless of the number of kilowatt hours generated by the stations.

The people of Maine, in paying rates that enable the power companies to pay interest and taxes, are paying not only for the energy that is consumed in Maine, but are also paying for the millions of kilowatt hours that are now allowed to go to waste.

Export of surplus power means that interest, taxes and depreciation on wasted power, hitherto carried by customers who have no possible use for it, will be transferred in large part to power companies outside of Maine who can put this water power to work.

Whatever part of the money received from its sale that exceeds a fair return on the investment of Maine Power Companies will have to go, under the laws of the State of Maine, toward a reduction in rates.

Vote for lower electric rates!

CHURCH ACTIVITIES

FIRST CONGREGATIONAL CHURCH

In A. Edwards, Pastor
10:45 Morning Worship with sermon by the pastor. Subject, "Why I Believe in the Immortality of the Soul". Have you questionings that amount to fears concerning future life? If we were permitted to answer Job's inquiry, "If a man die shall he live again?", what would our answer be?

How may we KNOW the truth about this great question? It may be that we can throw some light upon this matter, come next Sunday and let us consider it together. The pastor would be glad to have you mail him any question you may have in your mind about this matter, and he will try to answer you in the sermon. You need not sign your questions unless you desire to do so.

On Thursday afternoon at three o'clock, Mrs. William Jessop, who spent many years in the Holy Land will speak in the Garland Chapel on the subject, "The Home of Three Great Religions". Everybody is cordially invited. It will be of very great interest. Don't miss it.

On Friday at nine o'clock a sale of New East goods will open at Bethel. Mrs. Jessop in charge. This will be a rare opportunity to secure beautiful gifts at reasonable prices and at the same time help a worthy cause.

The membership fee is only \$2, and that, of course, is applied on the purchase price of your Heatrola. In the Fall, we will install the Heatrola in your home—and the coal man will deliver a ton of FREE COAL to your bin (one-half ton with the Heatrola Junior).

Then, when winter comes, how you will enjoy the Heatrola, with its cozy, whole-house warmth, its beauty, its fuel economy. If you are not sure you'll get to see us before Saturday night, telephone and we'll come to see you.
